

## **Hideaway Stinger PRO Lighthouse - Installation Instructions**

Congratulations on your purchase of a high quality PUTCO product. Should you need any application or technical assistance, feel free to call us at: 1-800-247-3974 Monday-Friday 8:00 a.m. - 5:00 p.m. (Central Standard Time)  
Contact your PUTCO dealer for other quality accessories.

**Please read all instructions before installation and to check to see that all parts are included.**

### **KIT CONTENTS**

Description	Quantity
Hideaway Stinger PRO Lighthouse	1
Mounting bolts & Nuts	2
Foam Gaskets	2

### **Hideaway Stinger PRO Lighthouse Installation**

1. Verify the kit contents above.
2. Clean and dry the vehicle thoroughly in location where the Hideaway will be installed.
3. After the location is cleaned, test fit the Hideaway in that location.
4. After identifying the fitment, use the supplied bolts and secure the Hideaway to the vehicle, ensuring that the foam gasket is properly placed behind the Hideaway.

### **Hideaway Stinger PRO Lighthouse Wiring Diagram**

Wire Color	Functions
Black	Ground
Red	Pattern Mode 1 (+12V)
White	Pattern Mode 2 (+12V)
Yellow	Pattern Mode 3 (+12V)
Blue	Pattern Change (Tap to ground -)
White	Troubleshoot wire – NOT required / Do not wire.

## How to program and change pattern

1. Connect the Black wire to ground.
2. The Hideaway has 3 preset pattern modes. Power Red wire for pattern mode 1, White wire for pattern mode 2, Yellow wire for pattern mode 3. If both mode 1 and 2 are powered, mode 2 will override mode 1. Mode 3 will override modes 1 and 2.
3. With a pattern mode powered and running, tap the blue wire to ground once to change the pattern. The pattern will be saved on the selected/running mode wire.
4. You're all set! Power the desired pattern mode wire to display the desired pattern.

### SYNC:

If you are wiring multiple Hideaways and you need them to reset to the same pattern/sequence, simply tap the Blue wire to ground until the hideaways are programmed to the same pattern.
