

## Why Putco LED?

- Today's hottest lighting trend in the automotive industry is LED.
- Provides styling capabilities without investing in replacement factory fixtures.
- **Appearance** - Produces a brighter, cleaner and more attractive light than factory incandescent bulbs.
- **Reliability** - Burns longer and cooler, no need to constantly replace bulbs. Lifespan up to 50,000 hours.
- **Application Diversity** - Bulb types are common across all make, model and vehicle types. This product line offers a product for every customer!
- **Easy to Install** - Simply remove the factory bulb and install the LED Bulb utilizing the same factory outlet. Plug-n-Play.
